Brief Description

HelpMe is a social media to ease people to help other people or to be helped by other people. By using HelpMe, you can help many people that lives near you or even far from you. We implement the mission system in HelpMe, so it's kind of a game of helping people. The more you help, the more you'll be trusted, and you'll be more popular.

Page:

- Sign up/login

The screenshot shows the 'HelpMe' web application interface. At the top left, the text 'HelpMe' is displayed. To its right are input fields for 'Email' and 'Password', followed by a 'Sign In' button. Below this, the main content area features the text 'Help Other People.' and 'Sharing is Caring' on the left. In the center is a logo consisting of two hands, one blue and one black, with the text 'HelpMe' below it. On the right side of the main content area, there is a sign-up form titled 'Want to help others? Join us today!'. This form includes input fields for 'Full Name', 'Email', 'Address', 'Password', and 'Retype Password', followed by a blue 'Sign Up' button.

Help Request

Function:

1. Page Sign Up/Login
 - The user can sign up a new ID in this page or login to HelpMe with existing ID
2. Page Home
 - The user can see help requested by the user's friend. The user can also view his/her current location.
3. Page Profile
 - The user can see his basic profile status, his friends, and the post that the user himself/herself posted. In this page, the user can also change his/her profile picture.
4. Page AskHelp
 - The user can post help in this page by adding title, level of urgency, description, and his/her current location (noted by the red marker).

5. Page Map

- The user can see help posted by all people around the world (noted by colored marker based on the level of urgency) and then take it as a mission

6. Page Mission

- The user can see all of the missions taken by himself/herself. The user can also confirmed the status of the mission (failed / accomplished)

7. Page Request

- The user can see the mission posted by himself/herself that is taken by other people. Here, the user can confirm the status of the mission.
- If the helper fails, the user can mark it as a 'decline' and then it will decrease the point of the helper.
- If the helper successes, the user can mark it as a 'accept' and then it will increase the point of the helper.
- The user can also delete the mission by mark it as 'delete'. The helper point's will not decrease nor increase.

Navbar:

- : Our logo and if the user clicked it, the page will be redirected to home
 - : The user can search people that uses HelpMe by typing the name here
 - : Click one of the button and the page will be redirected to the corresponding page
 - : If the user clicked it, a dropdown will appear and list all of pending friend requests
- 
- : If the user clicked it, a dropdown will appear and show 'Log Out' button
- 

Other feature(s):

Star: A star will appear for every 20 helpful rate the user has. The more star the user has, the more popular he/she will be.
